

Optimise Your Tax Residence

The **Place Of Effective Management (POEM)** is a key factor in determining a company's **tax residence**, influencing compliance, obligations, and financial strategies. We specialise in helping businesses identify and establish their effective place of management, ensuring alignment with international tax regulations while optimising their tax position.

Our Services:

1. Pinpointing the location of key management and commercial decisions that shape investment policies, operational strategies, and overall business direction.
2. Evaluating the place where strategic transactions - such as mergers, acquisitions, and major asset movements - are planned and executed.
3. Assessing the oversight and governance of senior executives responsible for day-to-day operations.
4. Reviewing processes related to finance management, such as profit allocation and dividend declarations, in the context of tax residence requirements.

By focusing on the strategic control level rather than just daily operations, we provide tailored solutions to determine your company's tax residence. Note that the FTA is now asking for confirmation of POEM in an increasing number of Treaty Tax Residency Applications.

Take control of your tax residence today. Partner with us to define your Place Of Effective Management with confidence.
